

Natural Gas Firepits

- Enjoy the outdoors with natural gas firepits.
- No need to wait for fire to get hot as with wood firepits.
- Clean burning natural gas doesn't create any smoke or soot as with wood firepits.

Safe for You and the Environment

Enjoy the great outdoors with the natural beauty of a natural gas campfire! Imagine relaxing on your patio or deck with a fire that provides a warm, cozy atmosphere with the convenience of natural gas. You won't have to worry about chopping or hauling wood, igniting the fire, waiting for it to get hot or sparking embers because gas firepits come with easy instant on/off buttons. Not only are gas firepits easy and convenient, they are safe for the environment. Clean-burning natural gas doesn't create any smoke or soot as do wood firepits. You'll experience the outdoors in a new way with a natural gas firepit.

Don't Forget About Convenience Outlets!

Natural gas convenience outlets make it safe and easy to connect and disconnect your natural gas firepit without using tools. Safety features, such as an automatic shut-off valve, are standard on all gas convenience outlets. You will appreciate the flexibility convenience outlets provide, enabling you to best enjoy your outdoor living space.

Advantages of Natural Gas Firepits:

- Natural gas firepits are available in permanent or portable models.
- They create realistic-looking campfires.
- They come equipped with instant on/off.
- They are available with a wide variety of decorator base styles.
- They come with protective covers to safeguard against the elements.
- There's no need to chop and haul wood, or dispose of ashes as with wood firepits.
- Clean burning natural gas doesn't create any smoke or soot as with wood firepits.
- There's no need to wait for fire to get hot as with wood firepits.
- There's no popping or sparking embers as with wood firepits.
