

ENTRY LEVEL PROGRAMMER/ANALYST – WILLIAMSVILLE, NY

National Fuel is currently seeking an entry-level and/or junior Programmer/Analyst for an outstanding career opportunity at our corporate headquarters in Williamsville, New York. As part of the National Fuel team, the successful candidate will enjoy a challenging work environment with a strong and growing company. This position offers the first step in a well-defined career path within our corporate Information Services group.

The successful candidate will support a variety of corporate departmental needs through the maintenance and enhancement of critical business applications in the IBM mainframe and Microsoft Windows environments. Day to day responsibilities primarily involve coding and testing activities with some process analysis and design. The successful candidate will have the opportunity to work with a mentor within our Information Services organization, initially focusing on developing strong technical competencies in the specific environments and development tools in use at National Fuel.

Candidates must possess a minimum of an Associate's degree in Computer Information Systems, Management Information Systems, Computer Science or a related field. A Bachelor's degree in these fields is strongly preferred. Some application development experience is desirable but not necessary. Candidates must demonstrate initiative and professionalism, excel in a cooperative team environment and possess excellent interpersonal, communication and problem solving skills. The ability to grasp new technologies and programming languages is essential to succeed in this position. Candidates must be available for off-hours support calls in the evenings and on weekends.

National Fuel offers a competitive salary and a comprehensive benefits package. For confidential consideration, please submit your resume, cover letter and college transcripts by March 31, 2010 to:
