

OPERATOR – BELRIDGE GAS PLANT, CA

Seneca Resources Corporation, the oil & gas exploration and production subsidiary of National Fuel Gas Company (NYSE: NFG), is currently seeking an **Operator** at its Belridge Gas Plant in McKittrick, CA.

The Operator position is safety sensitive. Employees who occupy this position will be solely responsible for all aspects of the operation and maintenance of the Company's Belridge Gas Plant. The Operator will serve as an integral member of the Seneca operations team with responsibilities including, but not limited to the following:

- Operation, monitoring and general maintenance of Gas Plant facilities.
- Operate compressors.
- Oversee low temperature separation process.
- Oversee NGL fractionation process.
- Use computer to monitor plant samples and readings.
- Ensure communication of daily operations to supervisor.
- Communicates daily issues with operators coming in on relief.

This position requires a minimum of a high school diploma with at least five years experience preferably in gas plant operations. The successful candidate must have a working knowledge of computers. To do this job safely, one must be fully alert, use good judgment and be able to make decisions that affect the overall safe operation of the gas plant. The successful candidate needs to perform tasks involving bending, squatting, climbing, kneeling or stooping, balancing, carrying up to 50 lbs, and driving a motor vehicle. A valid Driver's license is also required.

This position is a 12-hour rotating shift schedule and does require weekend work.

Candidates responding to this ad must refer to the job title, **Operator**, in their correspondence. For confidential consideration, please mail your resume, cover letter and employment references by September 15, 2010 to:
